EDUCATION

- International Institute of Information Technology, Hyderabad (IIIT-H)** Aug 2021 - Aug 2024
Masters by Research, Computer Science and Engineering, GPA: 8.57/10
- KLE Technological University, Hubballi** Jul 2017 - Jun 2021
B.Eng. in Computer Science and Engineering, GPA: 8.66/10
-

EXPERIENCE

- **International Institute of Information Technology, Hyderabad (IIIT-H)** Aug 2021 - Jul 2024
Research Fellow - Machine Learning Lab (MLL)
advised by **Prof. Charu Sharma** and **Prof. Kai Han**
Worked on 3D Computer Vision topics like representation learning in non-euclidean spaces, unsupervised domain adaptation, and learning human-scene interactions.
- **KLE Technological University, Hubballi** Mar 2021 - Aug 2021
Research Intern - Center of Excellence in Visual Intelligence (CEVI)
advised by **Prof. Uma Mudenagudi**
Worked on the task of 3D shape decomposition into basic primitive shapes towards improving the performance of various 3D analysis tasks like classification and segmentation.
- **Indian Institute of Technology, Delhi (IIT-D)** Jun 2019 - Jul 2019
Project Trainee
Worked with **Prof. Prem Kumar Kalra** and his Ph.D. students on a medical-related project called “Drilling Effectualness”, which was a collaborative project with AIIMS, Delhi.
-

PUBLICATIONS

- Synergizing Contrastive Learning and Optimal Transport for 3D Point Cloud Domain Adaptation** 
Siddharth Katageri*, Arkadipta De*, Chaitanya Devaguptapu*, VSSV Prasad, Charu Sharma, Manohar Kaul
Winter Conference on Applications of Computer Vision (WACV), 2024, **Oral**
- Metric Learning for 3D Point Clouds Using Optimal Transport** 
Siddharth Katageri, Srinjay Sarkar, Charu Sharma
Winter Conference on Applications of Computer Vision Workshops (WACVW), 2024 - Pretrain 
- ABD-Net: Attention Based Decomposition Network for 3D Point Cloud Decomposition** 
Siddharth Katageri, Shashidhar Kudari, Akshay Gunari, Ramesh Tabib, Uma Mudengudi
International Conference on Computer Vision Workshops (ICCVW), 2021 - StruCo3D 
- PointDCCNet: 3D Object Categorization Network using Point Cloud Decomposition** 
Siddharth Katageri, Sameer Kulmi, Ramesh Tabib, Uma Mudengudi
Conference on Computer Vision and Pattern Recognition Workshops (CVPRW), 2021 - WiCV 
-

PAST AND ONGOING PROJECTS

- **Learning Human-Object Interactions in Real 3D Scenes** (*ongoing*)
Summary: We are interested in building systems that comprehend human motion and interactions in 3D environments and are actively working on it.
- **3D Object Detection and Tracking in Outdoor LiDAR Scans.**
Summary: We worked on benchmarking various SoTA methods across multiple datasets for the task of outdoor 3D Object Detection and Tracking, which was a preprocessing step to remove dynamic objects from 3D scans towards building a 3D City Map. This project was carried out under the supervision of **Prof. Avinash Sharma** and **Prof. Charu Sharma**.
- **Vision-Based Techniques to Evaluate Effectualness of Micro Suturing by Trainee Neurosurgeons**
Summary: We designed and implemented a vision-based technique for automated evaluation and scoring of the micro-suturing performed by trainee neurosurgeons. This project was done in collaboration with AIIMS, Delhi.
- **Mesh-Based Cloth Simulation** 
Summary: Implemented and proposed slight upgrades to “Learning Mesh-Based Cloth Simulation with Graph Networks” as a part of a course project at IIIT-H.

TEACHING AND EVENTS

- An active volunteer in organizing and managing the **3D Vision Summer School** in 2022 and 2023 organized at IIIT Hyderabad. Designed and conducted tutorial sessions on getting started with 3D Vision (slides [↗](#)).
 - An active volunteer in managing the **Summer School on AI** in 2023 organized at IIIT Hyderabad.
 - An active volunteer in managing **NCVPRIPG-2019**, which was organized at KLE Technological University.
 - Active Volunteer in conducting workshops on Image Processing, Machine Learning, and Computer Vision conducted by CVG. (2019, 2020)
-

CERTIFICATIONS AND ACHIEVEMENTS

- Attended a workshop on 3D Computer Vision at IIIT Hyderabad. (2020)
 - Attended CVG Winter Workshop on Image Processing, Machine Learning, and Neural Networks. (2020)
 - Completed multiple courses of *Deep Learning Specialization* authorized by deeplearning.ai, offered through Coursera.
 - Won multiple state and national level awards in the Abacus and Mental Math Championship. (*National rank: 65*)
-

TECHNICAL SKILLS

Languages: Python, C, C++

Framework: PyTorch, Scikit, OpenCV

Tools: Blender, MeshLab, Git, WandB
